## neolab® Chempump bottle with dosing device, 120 ml

**€49.20**  
**plus VAT &**  
**Shipping**

### Product Images

## Description

---

For fine and targeted dosing of many liquids, e.g. oils and gasoline, especially for wetting cleaning cloths with alcohols. With a slight pressure on the chrome-plated metal cap, a dosing device is activated which directly wets the absorbent cloth. The delivery tube brings even the last residue to light. When not in use, the bottle is hermetically sealed so that even volatile substances do not escape.

## Additional Information

---
