Description

The **neoLab 96-well PCR plate with perforated strips of 8** allows the most flexible and efficient use of a PCR plate - no need to use half-empty plates. This helps to save costs on consumables.

The plate is perforated to allow accurate tearing into 8-well strips.

No complicated cutting of plates with scissors and therefore no risk of perforated wells, damaged well edges and contamination.

Black labeling on all strips - no sample recognition errors.

As a rimless plate, universal cycler and sequencer compatibility is provided.

Additional Information

No.	7-5199
Manufacturer (Brand)	neoLab
EAN	4058072156169
Transport temperature	Room temperature
Color	transparent (milky)
Volume	0.2 ml
