Product Images

Description

All Tubes (PCR/Mirco Tubes) are free of RNase, DNase, pyrogens and PCR inhibitors

Cycle time reduction and optimal heat transfer
Guaranteed by extra thin, uniform wall thickness of the tube
Available with flat and domed lids

Effortless and safe operation
Ergonomic lid for easy, safe opening and closing with one hand

Optical measurement and control
Highly transparent tube

Product integrity
Sterile delivered product (beta irradiation)

No risk of sample contamination and loss
High quality raw material (polymer) meets purity requirements and is resistant to extreme mechanical and chemical stresses

Sterile handling
Autoclavable
