

Heidolph Heat-On 5 liter attachment

Product Images

Description

This Heat-On attachment is suitable for all applications where a 5 liter round bottom flask is to be heated. The maximum temperature for continuous use is 260°C. In order to measure this precisely by means of a temperature sensor, a small hole is provided on one side of the Heat-On attachment. For comfortable and safe transport of the Heat-On attachment - especially when hot - optional safety handles are available separately. For efficient response without loss of media, it is recommended to use solvent volumes up to 2.5 L.

Additional Information

No.	BH-1380
Manufacturer (Brand)	Heidolph
VGKL number	104158760
EAN	4058072775865
Gross weight	4.27
Net weight	4.04100 kg
Country of origin	Großbritannien
Packing width	0.31000 m
Packing height	0.17000 m
Packing depth	0.31000 m
Packaging volume	0.01600000 ccm
Customs tariff number	84199085
