Description

DURAN® GL 32 high temperature pouring ring (ETFE, red) High tightness due to PTFE-coated silicone seal (peroxide-crosslinked silicone). More chemically resistant than PP closure. A matching pouring ring made of red ETFE is available and allows clean, drip-free working. Special features and advantages: Good chemical resistance due to PTFE coating Screw cap seal with PTFE-coated cap septum provides an efficient seal Peroxide cross-linked silicone Available for PBT screw cap and tamper-evident cap Application: Autoclaving of media and reagents, Preparation of media and reagents, Suitable for dry heat sterilization, Pressurized applications, Storage of corrosive reagents, Chemical and thermal reactions, Long-term storage/archiving of media and reagents, Sampling, transport and shipping

Additional Information

No.	SD-2772
Manufacturer (Brand)	DURAN
VGKL number	112924419
EAN	4058072164225
Manufacturer EAN	4032051063990
Gross weight	0.001
Storage temperature	Room temperature
Transport temperature	Room temperature
Net weight	0.00100 kg
Color	red
Material	Ethylene tetrafluoroethylene (ETFE)
Country of origin	Germany
sterile	No
Region of origin	Hesse
Customs tariff number	39235090
