Product Images

Description

Ready-to-use, non-toxic, highly sensitive substrate solution for the detection of alkaline phosphatase (AP) in membrane assays. Forms dark purple precipitates on membranes at sites of AP activity.

- High activity causes rapid formation of precipitates
- High contrast due to very low background
- Long term stability at room temperature
- No significant fading after reaction stop

pH: 9.5–9.9

Visual detection limit on NC (ng/ml): <10

Additional Information

No.	SV-0015
Manufacturer (Brand)	SERVA
EAN	4058072371524
Transport temperature	Room temperature
