Product Images

Description

Ready-to-use, non-toxic, highly sensitive substrate solution for the detection of horseradish peroxidase (HRP) in membrane assays. Forms dark blue precipitates on membranes at sites of HRP activity.

- High activity causes rapid formation of precipitates
- High contrast due to very low background
- Long term stability at room temperature
- No significant fading after reaction stop

pH: 4.9-5.1

Additional Information

No.	SV-0041
Manufacturer (Brand)	SERVA
EAN	4058072371784
Transport temperature	Room temperature
