neolab® pH electrode Flat S8

€142.00
plus VAT &
Shipping

Product Images

Description

The renowned Swiss manufacturer has developed a complete line of pH electrodes for glass-bodied laboratories.

The new XS sensors are available with S7 head or cable fixation with BNC or DIN connector.

A special polymer electrolyte/KCl or KCl electrolyte solution combined with a high performance reference system produces a full range of electrodes.

Blue inner buffer provides a clear view of the contact with the inner pH glass membrane.

All XS sensors can be connected to commercially available pH meters.

Suitable for: Surface measurements e.g. paper or skin

Additional Information

No.	4-0943
Manufacturer (Brand)	neoLab
EAN	4058072189594
Transport temperature	Room temperature
Temp MAX	60 °C
Temp MIN	0 °C
Length	120 mm
suitable for	General laboratory applications
DM Electrode/ Sensor	12 mm
measured size(s)	pH value
pH MAX	14.0 pH
pH MIN	0.0 pH
Data transmission	Cable
Electrolyte	Polymer
Shape lace	straight
Material diaphragm	Polytetrafluoroethylene (PTFE. Teflon®)
Material electrode / sensor	Borosilicate glass
Measuring unit	pH
Reference	Ag/AgCl
Type electrode / sensor	with cable connection
Type plug	S7
