Description

The accessories and consumables for the OmniaTap and OmniaPure ultrapure water systems ensure consistently high water quality. All Omnia ultrapure water systems are supplied as standard with a pretreatment cartridge, an ultrapure water cartridge and a sterile filter capsule, which should be replaced at regular intervals. Order No. 2-1235: The sterile filter capsule with a pore size of 0.2 µm mechanically filters microorganisms such as bacteria and germs from the ultrapure water in a further step. Suitable for all Omnia ultrapure water systems.
