### Product Images

## Description

---

For optimal use of the Heat-On inserts, the Multi-Well holder is recommended. Like all Heat-On inserts and attachments, the Multi-Well holder is made of PTFE-coated aluminum. This guarantees not only the fastest heat transfer and easy cleanability, but also scratch resistance and chemical resistance. The maximum temperature for continuous use is 260°C. In order to measure this accurately by means of a temperature probe, a small hole is provided on one side of the Multi-Well bracket. The Multi-Well bracket can enclose up to two Heat-On inserts at once, allowing multiple combinations to be created. Our Multi-Well packages are ready for you. The Heat-On Multi-Well bracket is supplied without safety handles. These are sold separately.

## Additional Information

---

No.	BH-1367
Manufacturer (Brand)	Heidolph
VGKL number	104158600
EAN	4058072775735
Gross weight	0.756
Transport temperature	Room temperature
Net weight	0.69200 kg
Country of origin	Great Britain
Packing width	0.16000 m
Packing height	0.06000 m
Packing depth	0.23000 m
Packaging volume	0.00200000 ccm
Customs tariff number	84199085
